COMMUNITY STUDIO USE SCENARIOS AND OCCUPANCY ANALYSIS

September 2026

COMMUNITY STUDIO
GENERAL TYPES OF USE

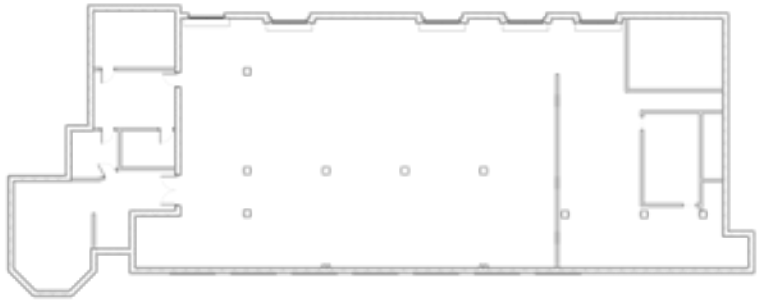

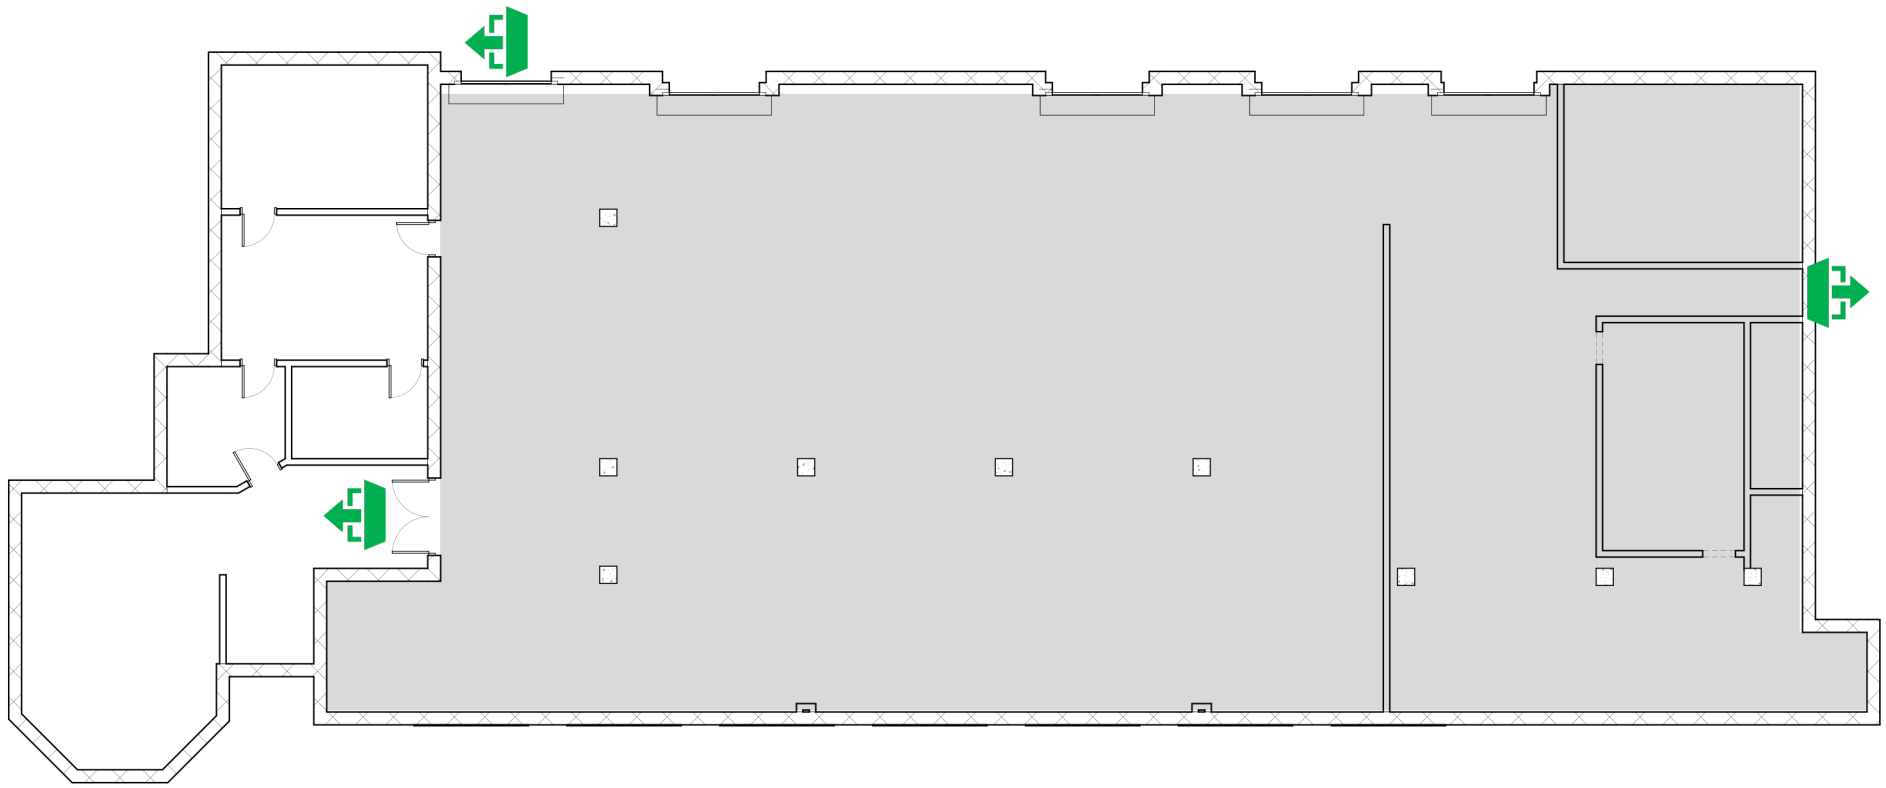

Table of Contents	
Types of use	**Slide**
Overview	4
Dirty Workshop Area (Fixed Provision)	5-7
Clean Workshop Area (Flexible Space)	8-10
Exhibition or Meeting Areas (Flexible Space)	11

Proposed use for the space	Occupancy Factor
Assembly hall/general event space without fixed seating	0.5 m^2/person
Meeting, conference, dining or common room	1.0 m^2/person
Exhibition hall or recording/film studio	1.5 m^2/person
Workshop, factory production area or art gallery	5.0 m^2/person
Office	6.0 m^2/person
Kitchen or library	7.0 m^2/person

Table 1: reference: https://assets.publishing.service.gov.uk/media/6aa3bb7492e72b8ac437f145/AD_B2_2026.pdf

Community Studio First Floor Plan

Notes:

Community Studio (CS) Area in grey.

Approximate Total CS Area: 3,600 ft^2 // 334 m^2

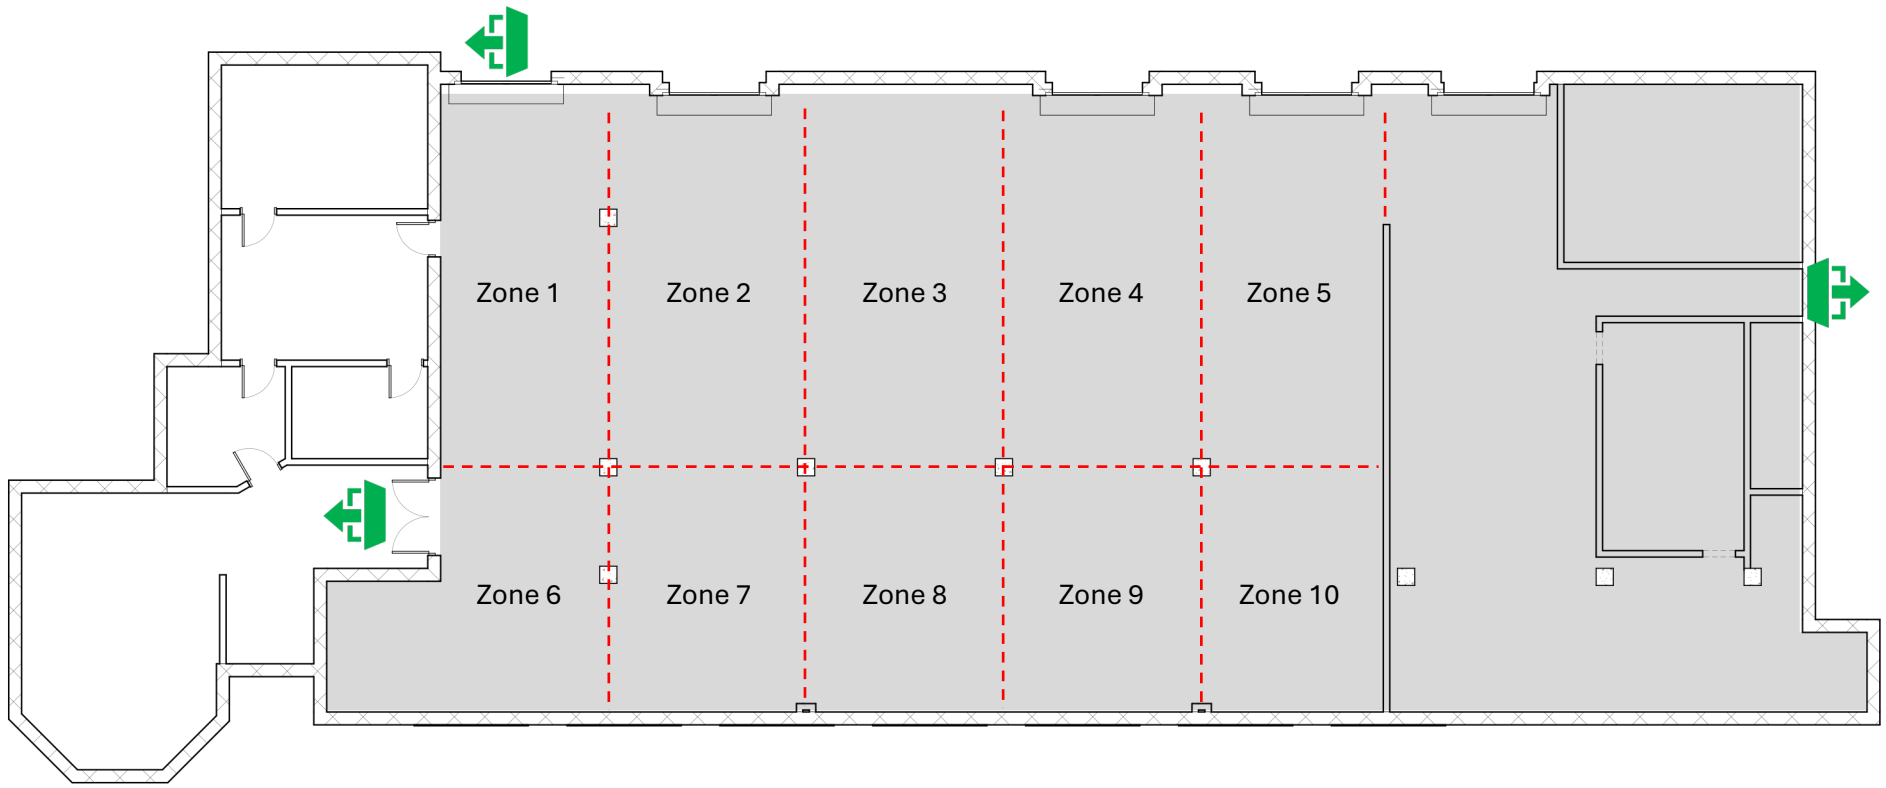

Emergency exit routes:

Table 1 Notes:
The table identifies types of spaces proposed for the Community Studio and its corresponding occupancy factor.

Example:

100 m^2 of meeting space ÷ 1.0 m^2/person = 100 people maximum occupancy for 100m^2 meeting space.

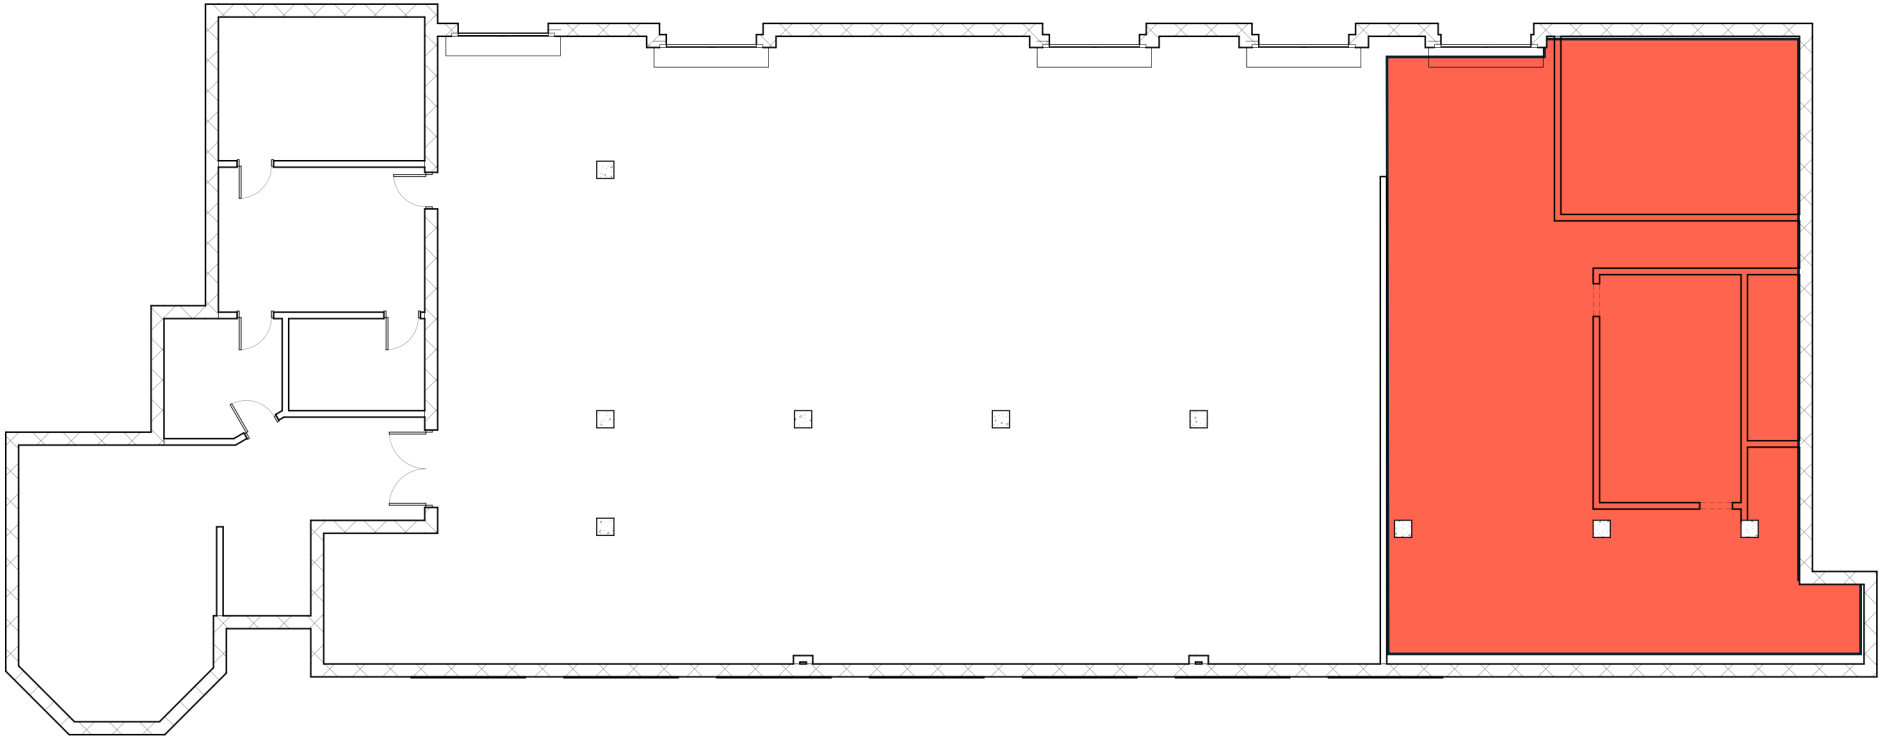

Disclaimer: These figures remain subject to confirmation against means of escape, ventilation, welfare facilities, accessibility, furniture or display layouts, and the fire-risk assessment.

Community Studio First Floor Plan

Notes:

Community Studio flexible workspace area divided into zones.

Function	Indicative area
Laser cutter and controlled working zone	10–15 m^2
Clothing-printing equipment and work area	8–15 m^2
Three enclosed FDM printers and shared bench	5–8 m^2
General preparation and assembly benches	15–20 m^2
Materials and consumables storage	8–12 m^2
Sink, washout and waste-handling area	5–8 m^2
Circulation and clear escape routes	15–20 m^2
Indicative total	66–98 m^2

Table reference: Chat-GPT (21/09/2026)

Dirty Workshop Area [Fixed Provision]

Description: A designated space for tools, equipment and fabrication processes that may require specialist services such as local exhaust ventilation, water, drainage and enhanced power provision.

Equipment would come through partners and available UAL/CSM stock. Assets would be available for community use through booking system.

Workshop Uses:

- Garment printing
- Laser cutting
- FDM 3D Printing
- Soldering
- Sewing
- Sink, washout and waste-handling area

Machines / Equipment / Tools

- Direct to Garment Printers (x1-5) (tbc)
- Laser cutter(x1) (tbc)
- WASP 3D Printer (x1) (tbc)
- FDM Printers (x3) (tbc)
- Workbenches / tables

Dirty workshop area = approx. 900 ft^2 // 83.6 m^2

Dirty workshop occupancy = approx.16 people

Occupancy calculation based on:
https://assets.publishing.service.gov.uk/media/6aa3bb7492e72b8ac437f145/AD_B2_2026.pdf

GTX

The X factor for your garment printing business

Specification

Printing Method	Direct Inkjet Garment Printer
Machine Size	55"(W) x 51"(D) x 21"(H) (1400mm x 1290mm x 535mm)
Machine Weight	260lb (approx.118kg)
Max. Printing Area	16" x 21" (40,64cm x 53,54cm)
Plate Delivered	14" x 16" (35,54cm x40,65cm)
Ink Type	Water based pigment ink (200 and 500ml pouches available)
Ink Color	CMYKW
Printhead type	On demand piezo head
Number of Printheads	2
Printhead resolution	1200 dpi x 1200 dpi
Print Mode	Single or multiple for CMYK. Underbase and highlight for white
Enviroment	Operating conditions: 50°F(10°C)to 95°F(35°C) Humidity: 20-85% RH Printing conditions: 64°F(18°C)to 86°F(30°C) Humidity: 35-85% RH
Data output	Printer driver (USB, File output)
Power supply	AC 100V-240V, 50/60Hz
Power consumption	0.8A (average) (Reference: 0.3A (during circulation))
Ink cure	Heat press machine can be used at 356°F (180°C) and 35 seconds duration. Conveyor oven is recommended to support high productivity of the printer at 320°F (160°C) and 3.5 minutes duration. Time and temp. may vary depending on which manufacturer's dryer is used.
Pre-treatment	Before printing, apply using a manual or automatic device and dry using a heat-press machine according to manufacturer instruction. Pre-treatment is necessary for white ink.

Software

OS	Windows 7 (32 bit/64 bit), Windows 8.1 (32 bit/64 bit), Windows 10 (32 bit/64 bit), Mac OS X v10.10.x
Interface	USB2.0, LAN (10 BASE-T, 100 BASE-TX), USB Flash Memory (Under 32GB, FAT32 format)
Driver operating conditions	2GHz CPU, 4GB RAM
Display resolution	XGA (1024×768)
Recommended PC applications	CorelDRAW® X6/X7, Adobe® Photoshop CS6/CC, Adobe® Illustrator CS6/CC, Adobe® Photoshop Elements 12/13

Dirty Workshop [Fixed Provision]

Equipment Info:
Direct to Garment Printer

- **Make/model**: Brother GTX-422 – Mirage MK
- Materialise Lab could potentially provide x1-5 DTG printers.
- Materialise Lab is an independent textile innovation lab housed inside Blue Garage designed, developed, and managed by a collective of designers. The lab was built to empower material experimentation, creative R&D, and hands-on innovation.

HPC Laser
Laser experts since 2007

LS6090 PRO

The LS6090 is one of the most popular Laserscript machines due to its high power laser tube and large bed size. It is a versatile all-rounder supplied with a 2 inch focusing lens ideal for cutting and engraving with maximum precision at fast speeds.

The class 1 laser enclosure ensures that the laser beam is safely contained during normal operation. With separately keyed on/off switch, unauthorised access and operation can be prevented.

The machine is provided with a 12 month onsite warranty with option to extend up to 3 years.

Machine Features:

- Class 1 laser system
- 60W tube as standard with 80W and 130W power upgrade options available
- Machine can be quickly split to fit through a standard single doorway (minimum doorway width 690mm)
- Red dot pointer system for easily and quickly lining up your work
- Slatted non-reflective aluminium bar bed for supporting a wide range of materials and weights (honeycomb bed available upon request)
- High quality optics provide high accuracy, reliability and long life
- Pass-through panels front and rear allow larger items to be cut and engraved
- Air assist to control heat and disperse smoke and debris around cutting nozzle
- Water flow switch to provide protection against failure of cooling system.
- Available options include water chiller, fume filter and rotary attachment for engraving cylindrical items
- Louvred cabinet ventilation slots ensure maximum enclosure safety
- Allen Bradley Guardmaster safety switches prevent operation of machine with lid, laser tube door or debris drawer open

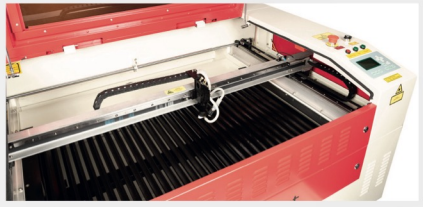

Cut and Engrave:

- Paper, card and print media
- Fabric
- Leather
- Acrylic, nylon and other non-PVC plastics
- Plastic laminates
- Latex and rubber
- Plywood and MDF
- Wood and wood veneers

Engrave Only:

- Glass, granite, slate and marble
- Uncoated metals*
- Anodised and coated metals

*ceramic marking compound required

LASER CUTTER - HPC LS6090

Item	Power	Notes
LS6090 laser cutter	220–240V, single phase	Has 3 built-in auxiliary sockets for compressor/chiller
Hailea air compressor	~135W	Plugs into laser's own auxiliary socket
CW5200 water chiller	~750W (0.7kW chiller + 0.05kW pump), 0.25–3.9A	Plugs into laser's own auxiliary socket
Combined station load	**~1.2–1.7kW (~5–7A)**	**Needs 1x standard 13A double socket** — everything runs off the laser's own supply, no separate feeds needed for compressor/chiller

LASER CUTTER - HPC LS1690

Item	Power	Notes
LS1690 laser cutter + same Hailea compressor + same CW5200 chiller	~1.2–1.7kW (~5–7A) combined	Same setup as Station 1 — **needs 1x standard 13A double socket**

SMALL EQUIPMENT

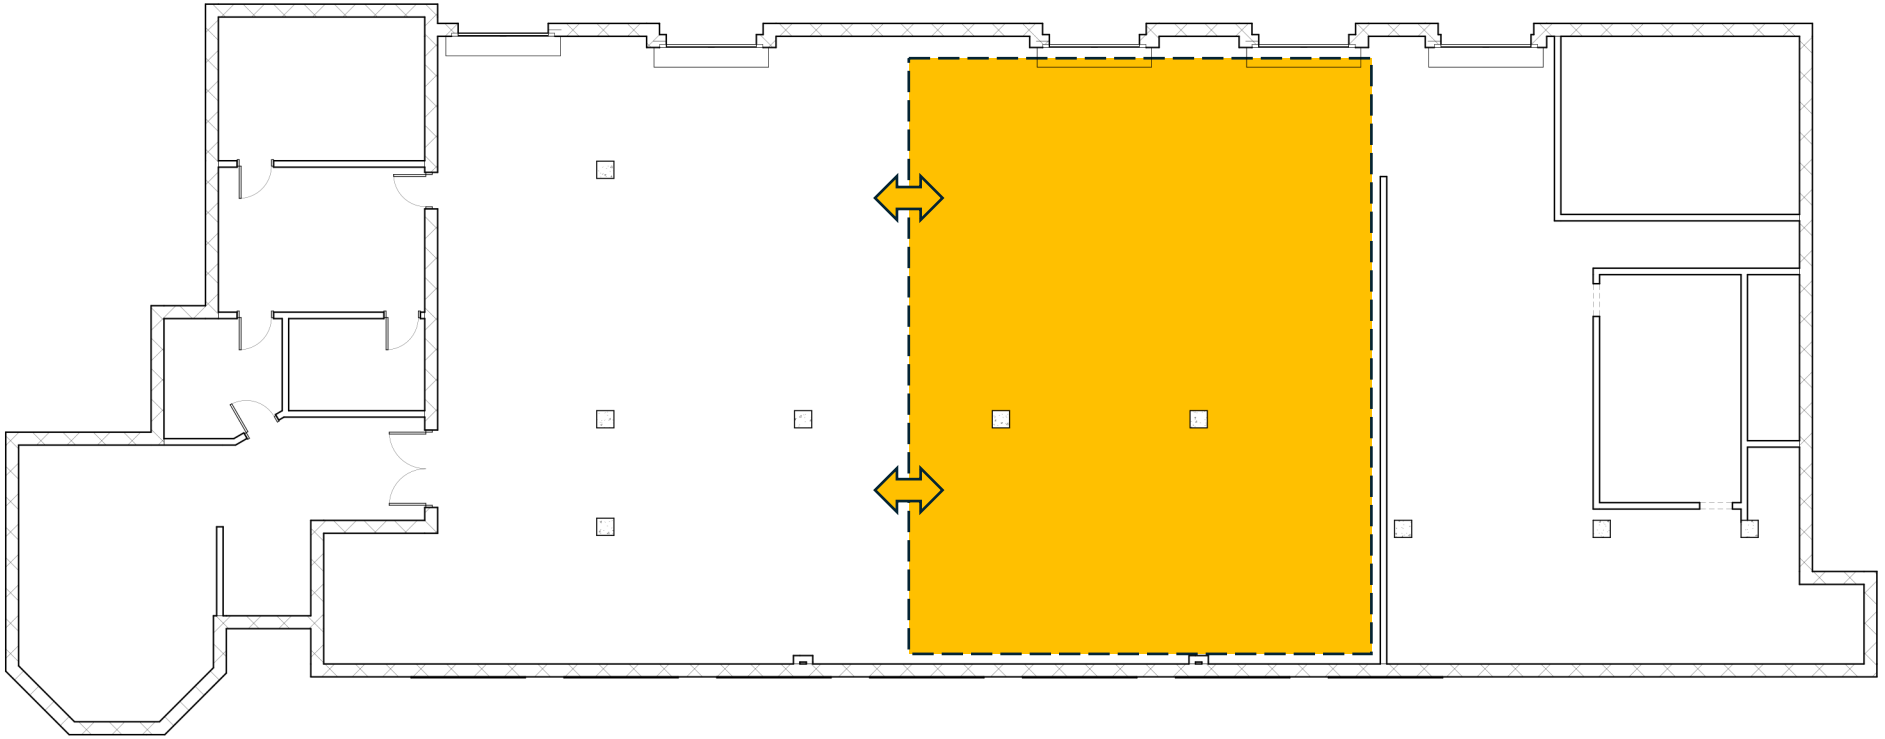

Item	Power	Notes
Desktop printer	~20–50W	Negligible — any spare socket
Computer	~150–400W	Any spare socket
Small fan	~50–100W	Any spare socket

Dirty Workshop [Fixed Provision]

Equipment Info:
Laser Cutter

- **Make/model**: HPC LS6090
- Data sheet
- Materialise Lab could potentially provide x1-5 DTG printers.
- Materialise Lab is an independent textile innovation lab housed inside Blue Garage designed, developed, and managed by a collective of designers. The lab was built to empower material experimentation, creative R&D, and hands-on innovation.

Clean Workshop Area [Flexible Workspace]

Configuration	Indicative practical capacity for 1,200 ft²
Benchtop assembly with individual workstations	18–22 people
Collaborative assembly using shared project tables	16–20 people
Sewing workshop with cutting, pressing and storage	16–18 people
Machine-focused sewing room, with cutting and pressing elsewhere	18–20 people
Mixed sewing and benchtop activities	16–20 people
Demonstration-led practical workshop	18–22 people

Table reference: ChatGPT (21/09/2026)

Note: Clean workshop analysis based on area of 1,200 ft² (112 m²); i.e., approximately 1/3 of the Community Studio floor space.

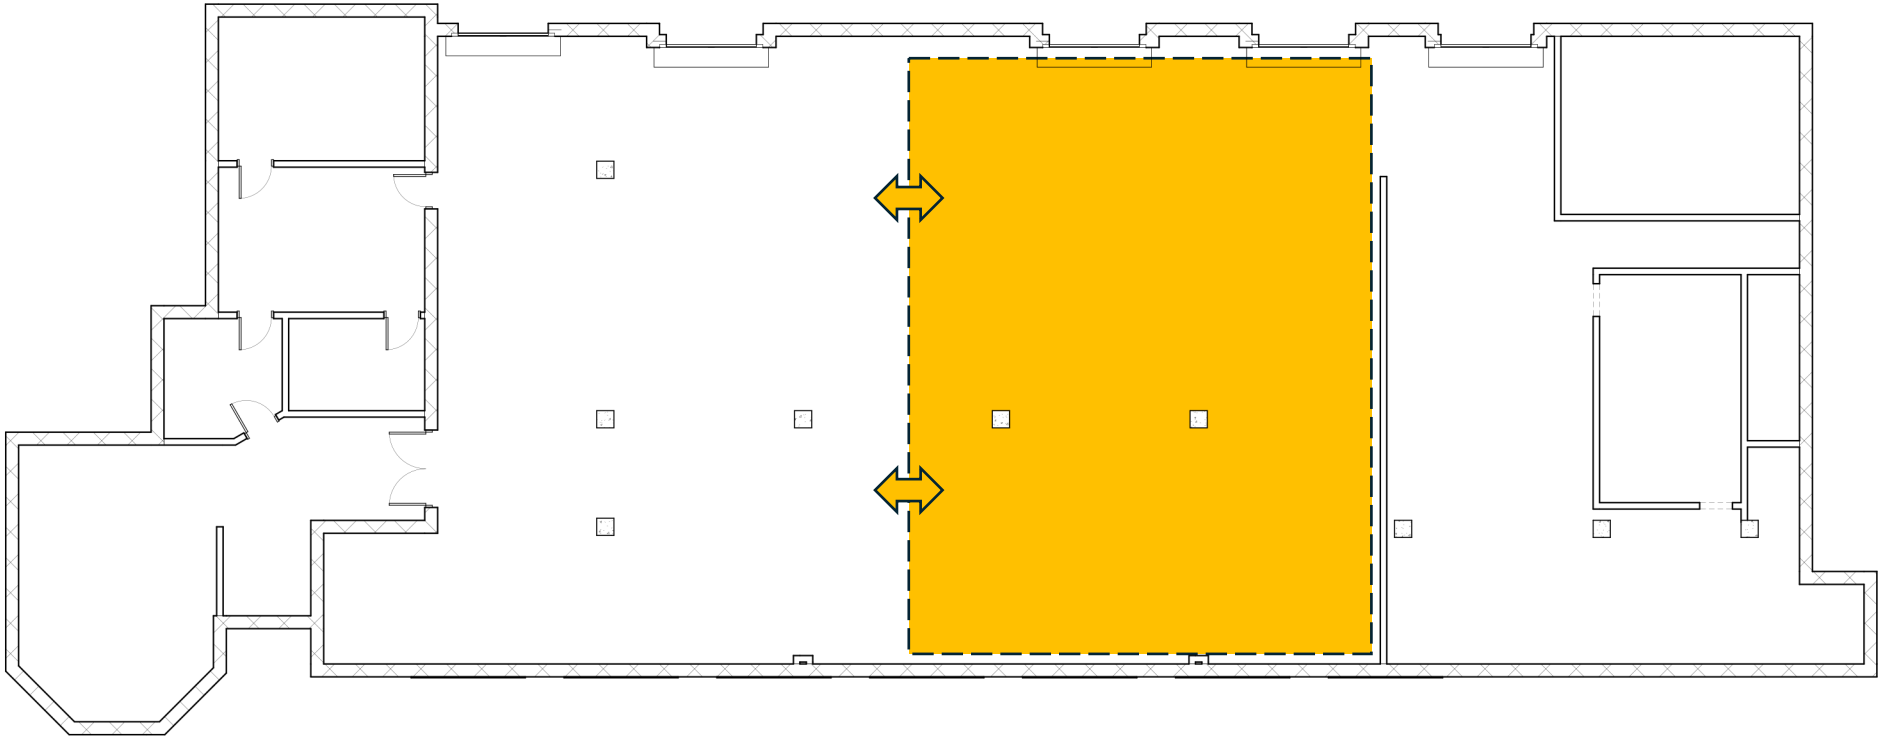

Description: A flexible space for low-dust, low-emission activities—such as benchtop assembly and sewing—that do not require specialist extraction, water or drainage.

Example workshop Uses:

- Workbench assembly
- Hand tools
- Sewing, looms

Machines / Equipment / Tools

- [Sewing machines]
- [Looms]
- Cutting tables / workbenches

Capacity measure	Indicative provision for approx. 1,200 ft² sewing workshop
Sewing machines	14–16
Students working simultaneously	16–18
Tutors/technicians	1–2
Recommended total operational occupancy	18–20 people
Area-based workshop maximum	22 people

Table reference: ChatGPT (21/09/2026)

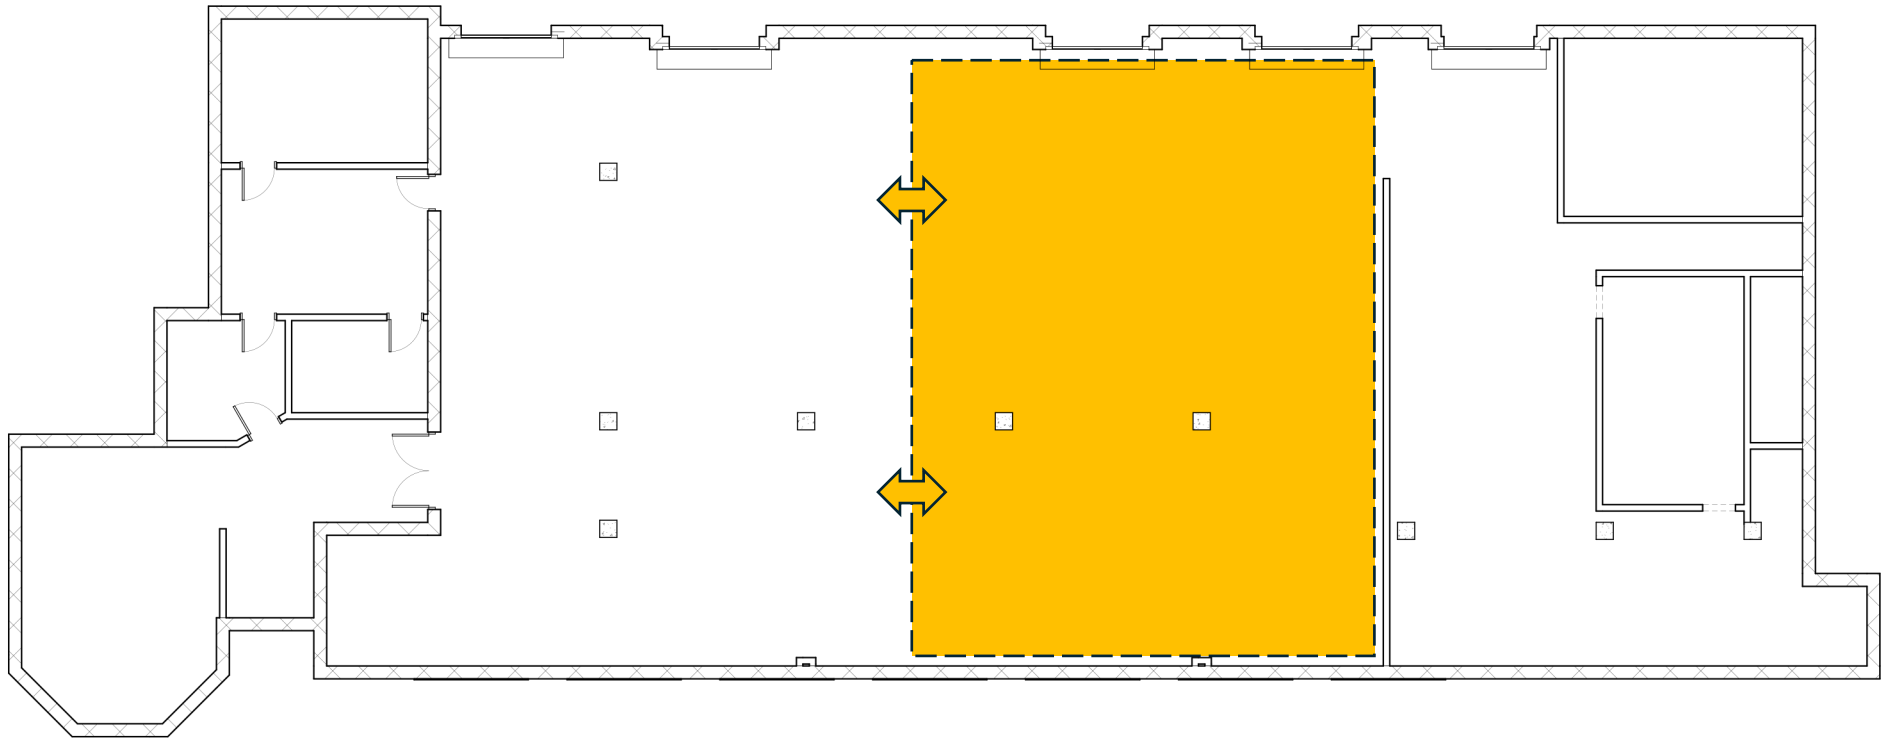

Clean Workshop Example: Sewing Workshop [Flexible Workspace]

Note: Sewing workshop analysis based on area of 1,200 ft² (112 m²); i.e., approximately 1/3 of the Community Studio floor space.

Description: Numbers in the table are based on the hypothetical use of the clean workshop area operating as a sewing workshop.

Sewing Workshop Uses:
- Sewing, looms
- Cutting stations

Machines / Equipment / Tools
- [Sewing machines]
- [Looms]
- Cutting tables / workbenches

Function	Suggested allocation
12–14 sewing-machine stations, including one accessible station	38 m^2
Three or four looms and surrounding working space	14 m^2
Two shared cutting tables and surrounding access	20 m^2
Fabric, garment, consumables storage	9 m^2
Textile waste and recycling area	3 m^2
Circulation and clear escape routes	21 m^2
Total	105 m^2

Table reference: ChatGPT (21/09/2026)

Clean Workshop Example: Sewing Workshop [Flexible Workspace]

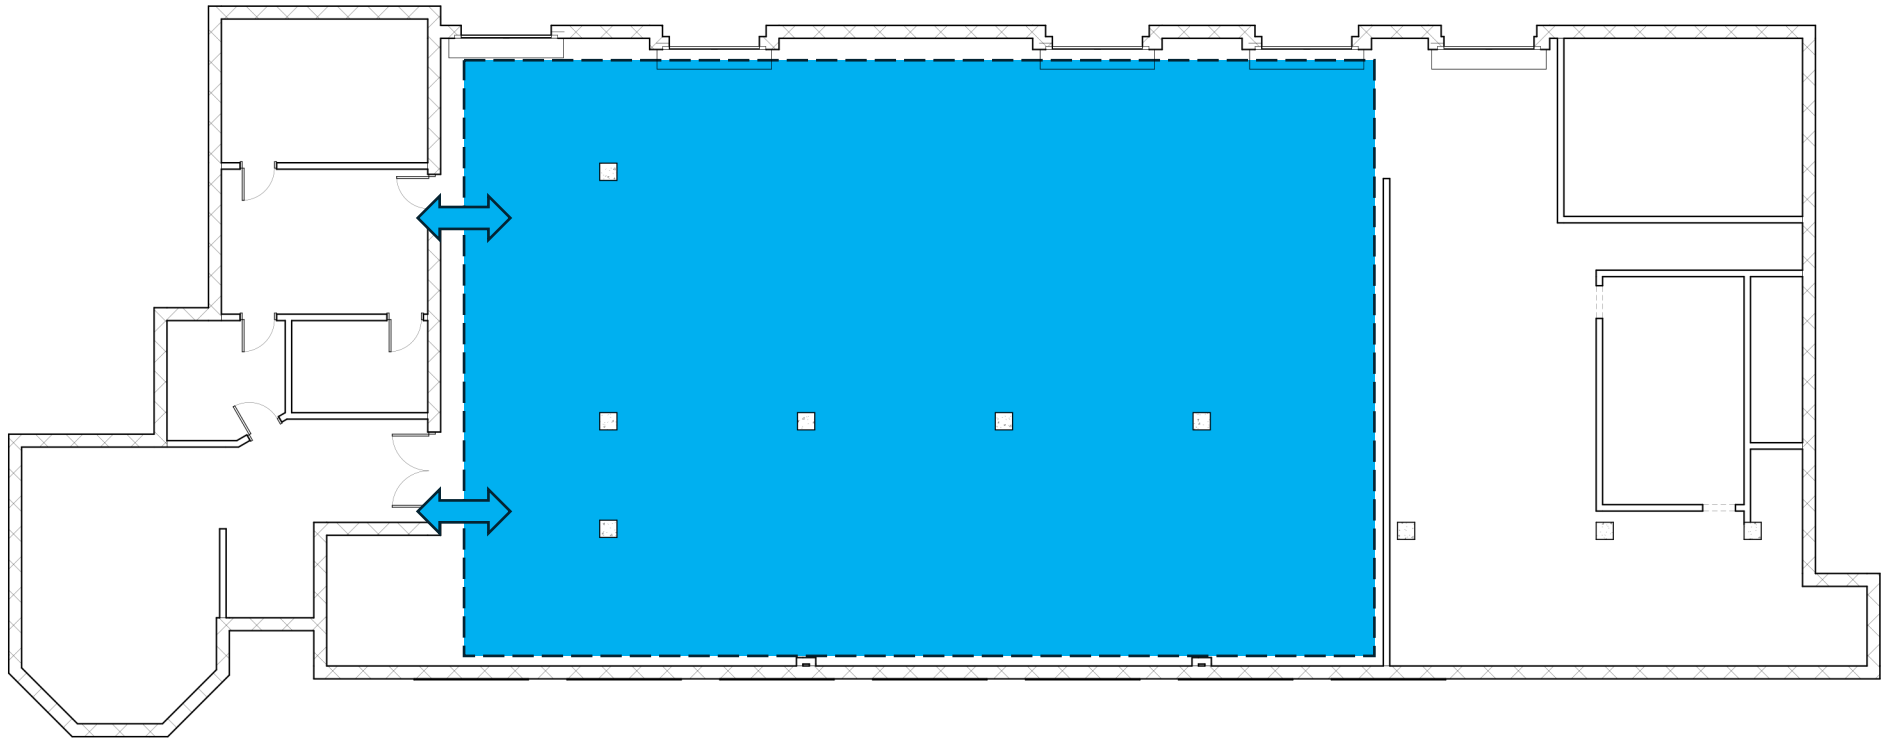

Note: Sewing workshop analysis based on area of 1,200 ft^2 (112 m^2)

Description: Numbers in the table are based on the hypothetical use of the clean workshop area operating as a sewing workshop.

Sewing Workshop Uses:
- Sewing, looms
- Cutting stations

Machines / Equipment / Tools
- [Sewing machines]
- [Looms]
- Cutting tables / workbenches

Exhibition or Meeting Area [Flexible Area]

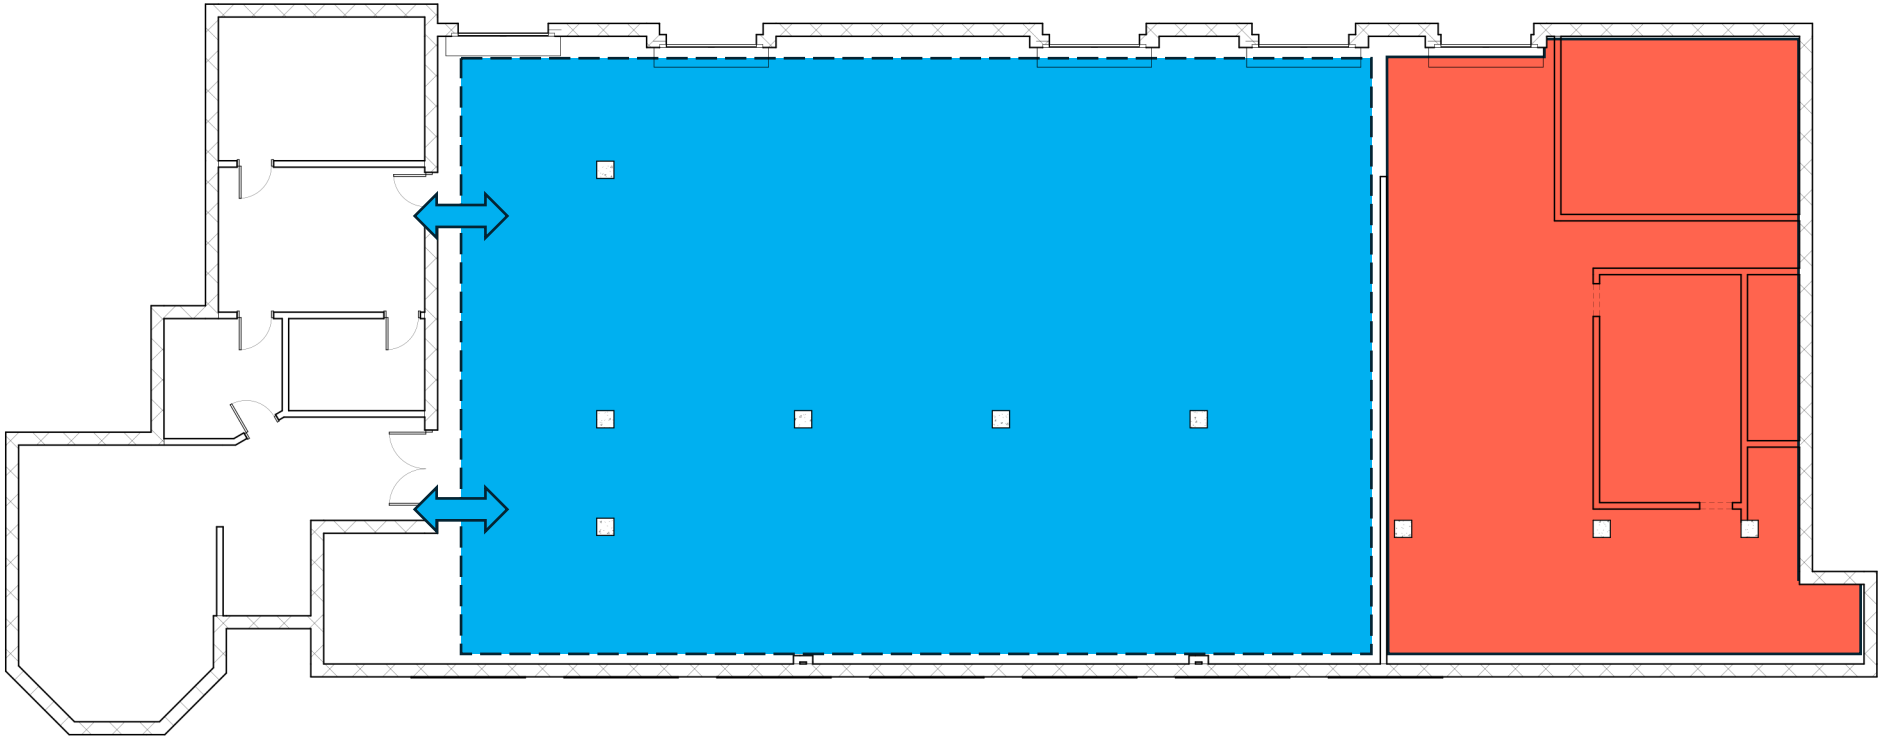

Configuration	Indicative practical capacity for 2,400 ft²
Open exhibition, moderate display density	95–130 people
Exhibition with substantial installations	65–105 people
Theatre-style meeting	130–185 people
Meeting with rows of tables	95–130 people
Workshop or cabaret tables	65–105 people
Boardroom/group-table configuration	40–80 people

Table reference: ChatGPT (27/09/2026)

Note: Exhibition space and meeting space analysis based on area of 2,400 ft² (223 m²); i.e., approx. 2/3 of the Community Studio floor space.

The 2,400 ft² multipurpose area has an estimated maximum area-based occupancy of 148 people for exhibition use and 222 people for meeting use.

Disclaimer: These figures remain subject to confirmation against means of escape, ventilation, welfare facilities, accessibility, furniture or display layouts, and the fire-risk assessment.

Configuration	Indicative practical capacity for 2,400 ft²
Open exhibition, moderate display density	95–130 people

Sound Systems

Course: MA Industrial Design

School: S

Collaborators: Itch Radio (tbc)

Use Scenario:

Event: Sound Systems Final Performance

Dates: 17/11/2026 – 19/11/2026

Max occupant No.: 125-150

Area required: 2,400ft² for exhibition

Equipment: tbc

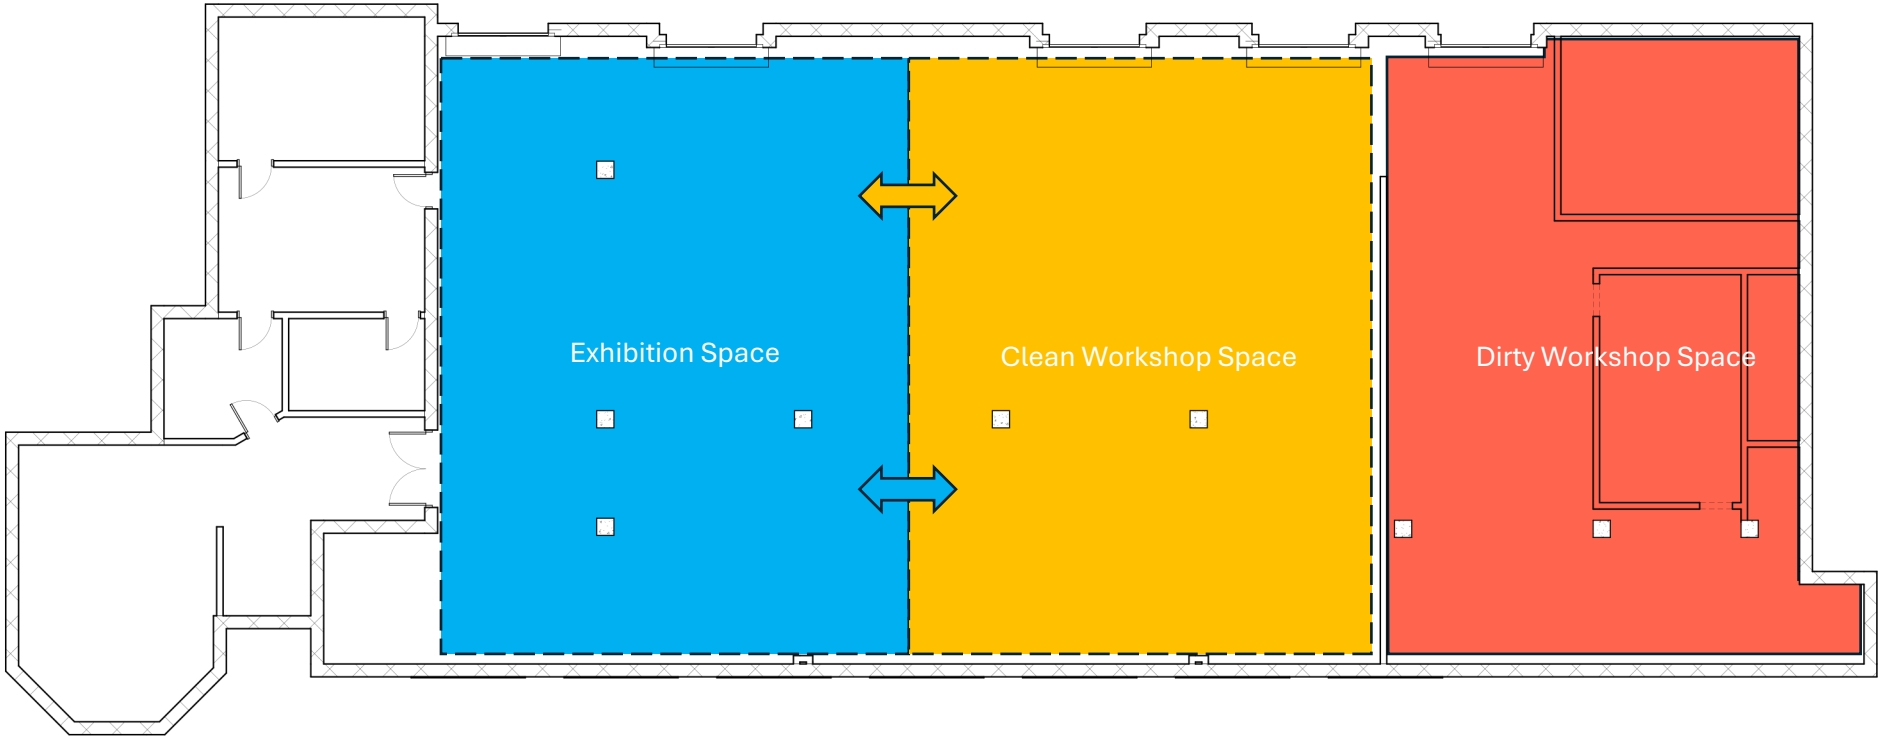

Where-Wear
[Makers Camp]

Courses:
- MA Fashion Design
- MA Fashion Comms
- MA Design for Industry 5.0

Schools: S, M

Collaborators: tbc

Project Dates: 21/1/27 – 26/2/27 (tbc)

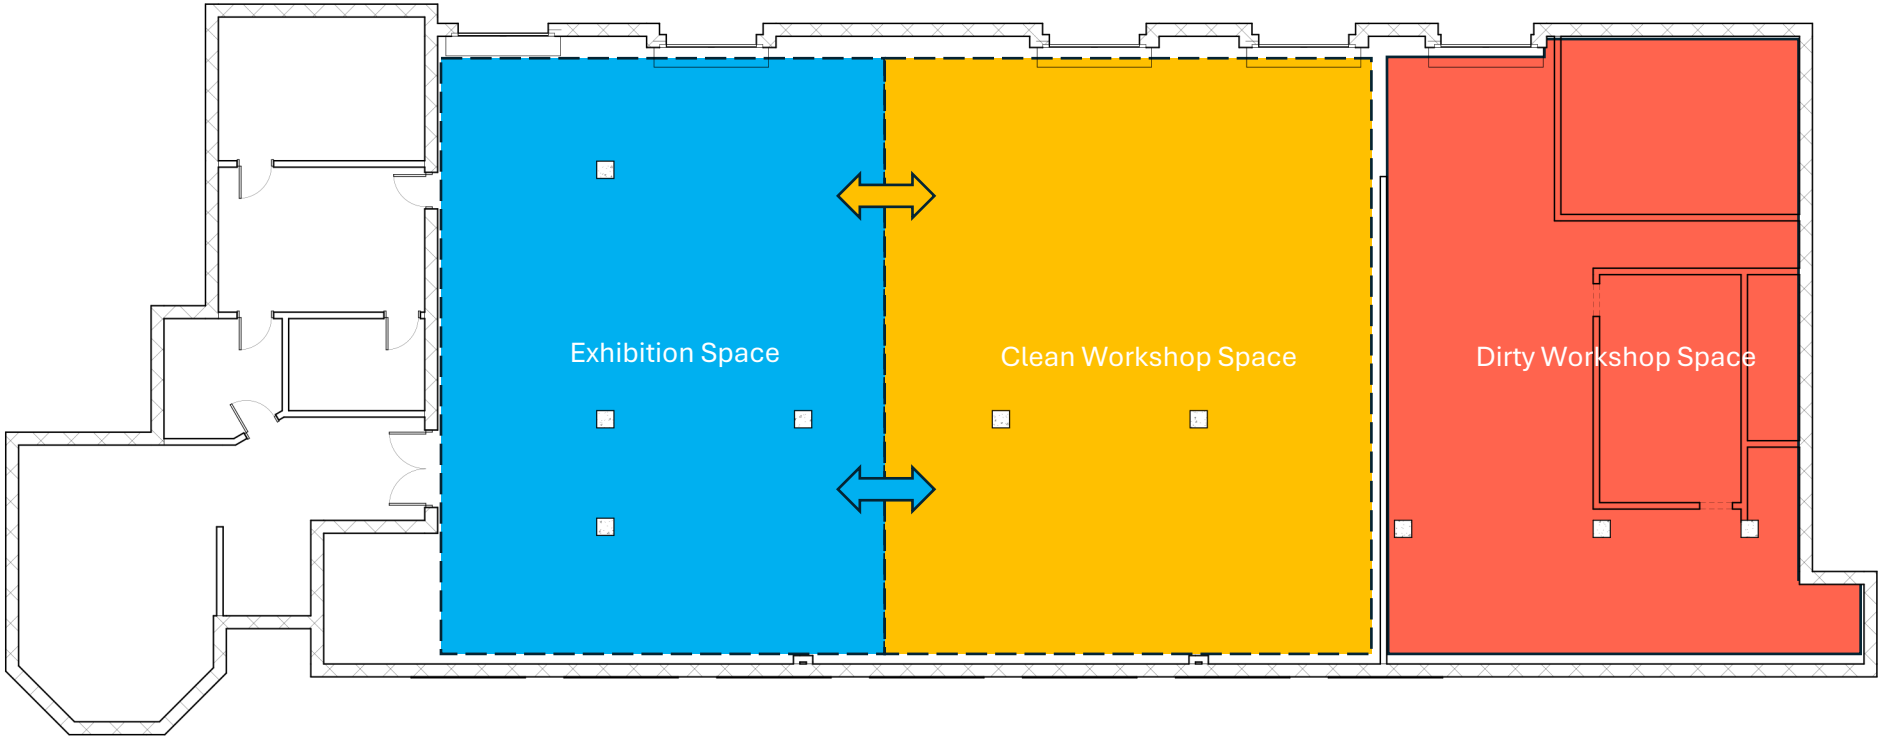

<u>Use Scenario 1:</u>

Event: Where-Wear collaborative workshops with community
Dates: tbc
Max occupant No.: 50 -140
Area required:
- 1,200-2,400ft^2 for clean workshop activity
- Outdoor front yard space

Equipment: worktables, cutting tables, sewing machines, hand tools, FDM 3D printers

<u>Use Scenario 2:</u>

Event: Where-Wear Exhibition or Film Screening
Dates: tbc
Max occupant No.: 100-150
Area required: 1,200-2,400ft^2 for exhibition
Equipment: projector, tables, chairs

Use Scenario 1:

Event: Creative Unions Workshops
Dates: 17/5/27 -18/6/27
Max occupant No.: 400
Area required:
- 2,400ft² for clean workshop activity
- ***Outdoor front yard space***

Equipment: worktables, cutting tables, sewing machines, hand tools

Use Scenario 2:

Event: Exhibition / Film Screening
Dates: 10/6/27 - 18/6/27
Max occupant No.: tbc
Area required: 1,200-2,400ft² for exhibition
Equipment: projector, tables, chairs

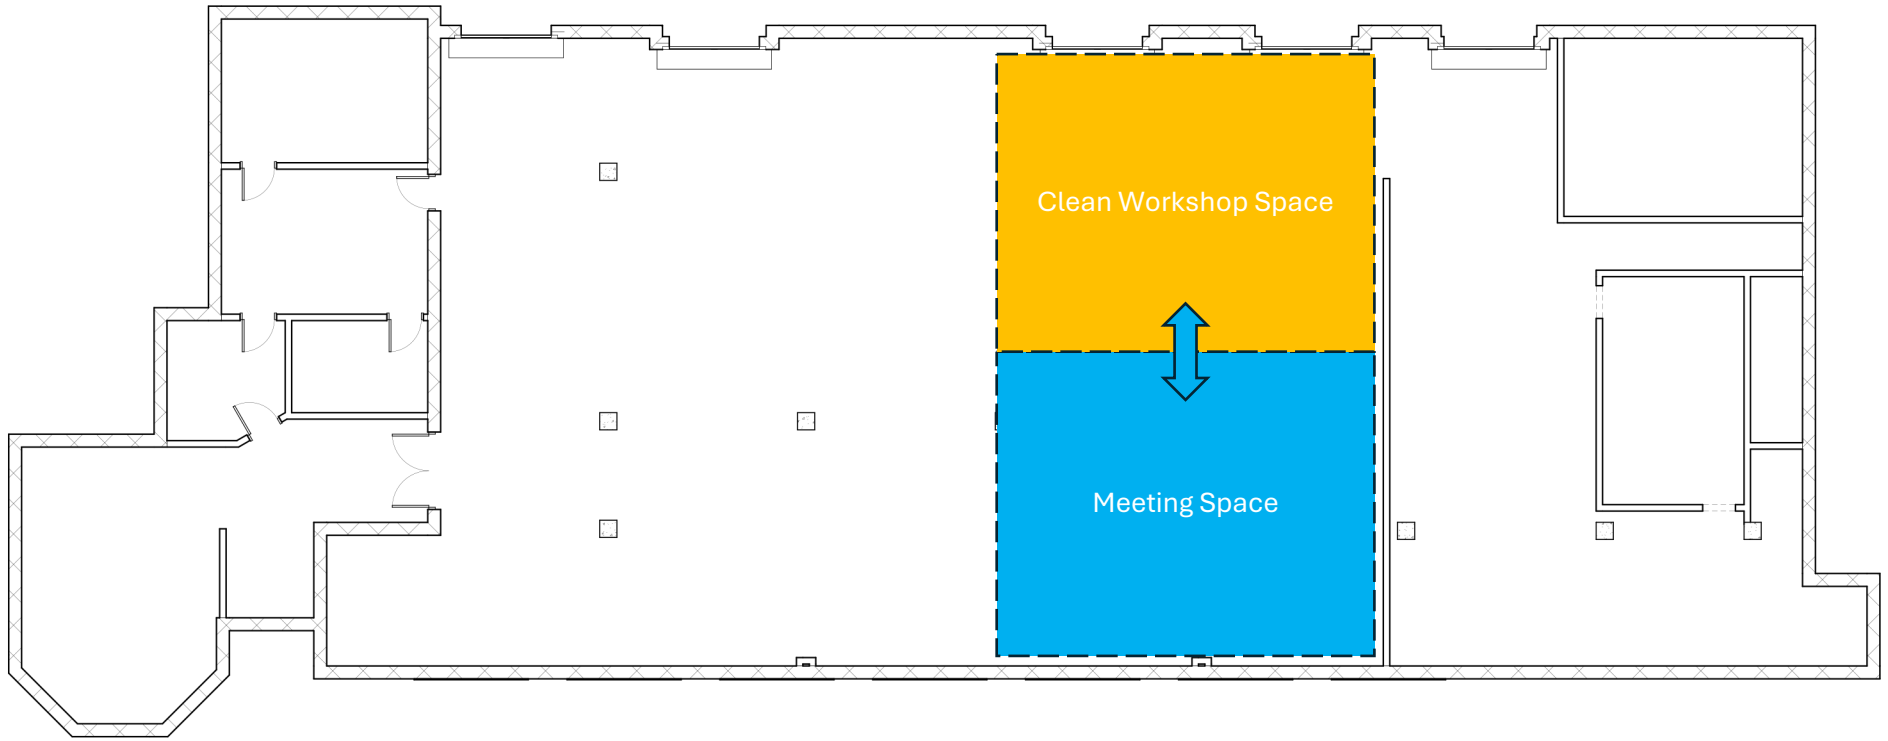

Creative Unions: M-School

Courses:
- BA Fashion

Schools: M

Collaborators: tbc

Project Dates: 24/5/27 -18/6/27

DPS Programme (BA Fine Art)

Course: BA Fine Art

School: C

Collaborators:
Kentish Town Connects social prescribing groups:

- Brandon Centre
- Camden Carers
- Creative Health Camden

Project Dates: Oct 2026 - Mar 2027 (tbc)

Use Scenario:

Event: Workshops with Social Prescribing Groups

Dates: tbc, Jan 2027 onward

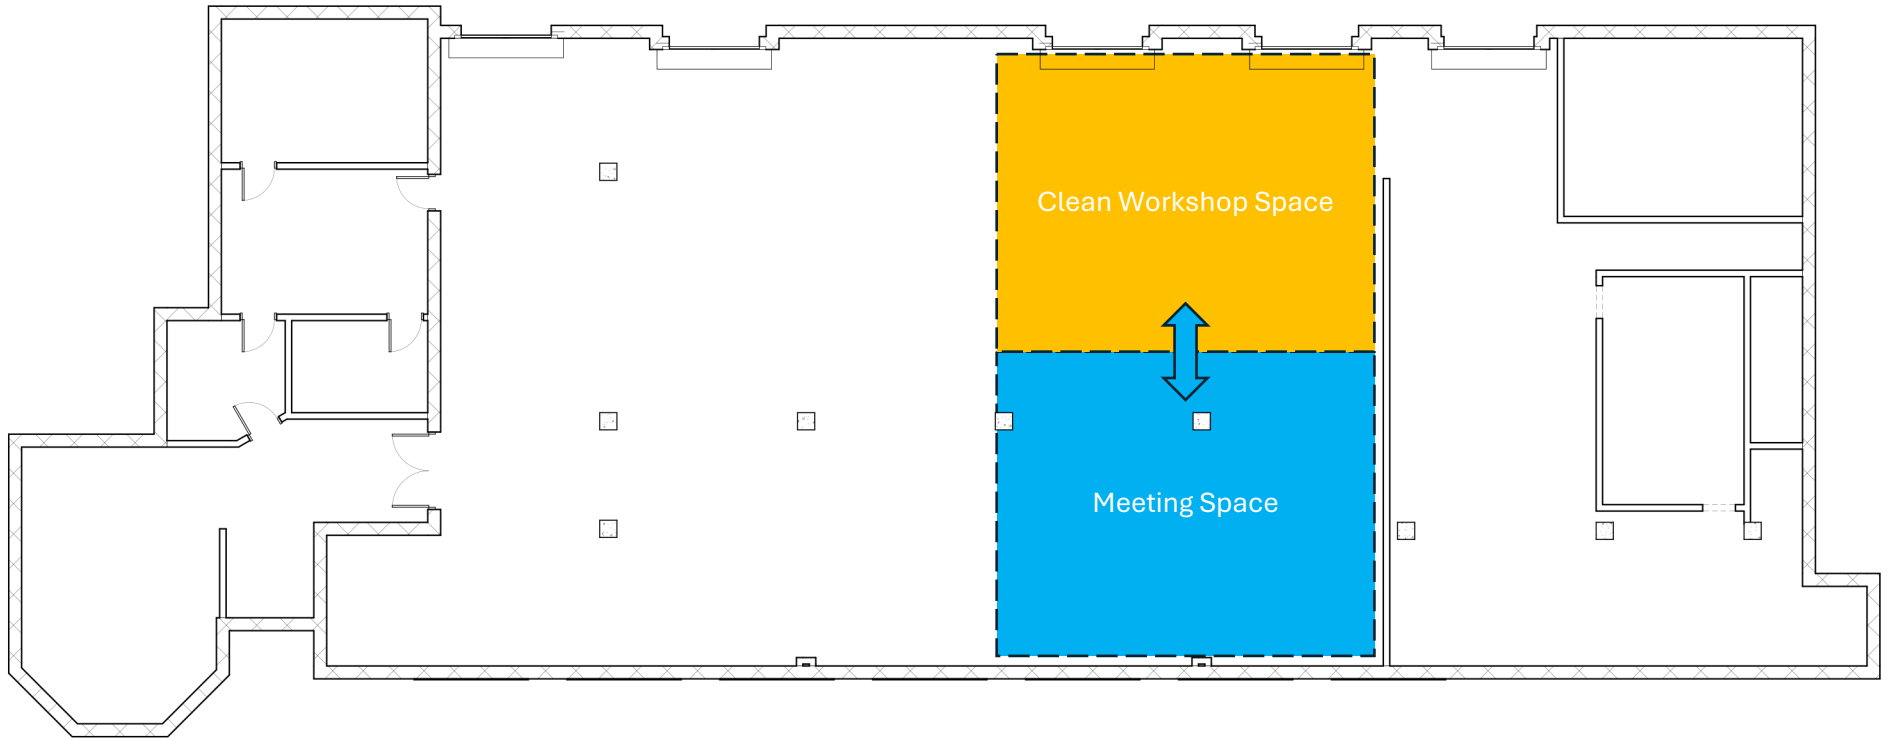

Max occupant No.: 10-20

Area required:

- Primarily rear yard area on several Wednesdays (dates tbc)
- Meeting space and clean workshop space as indoor provision

Equipment:

- hand tools

BA Architecture

Course: BA Architecture

Schools: S

Collaborators: tbc

Project Dates: October 2026 – April 2027

Use Scenarios:

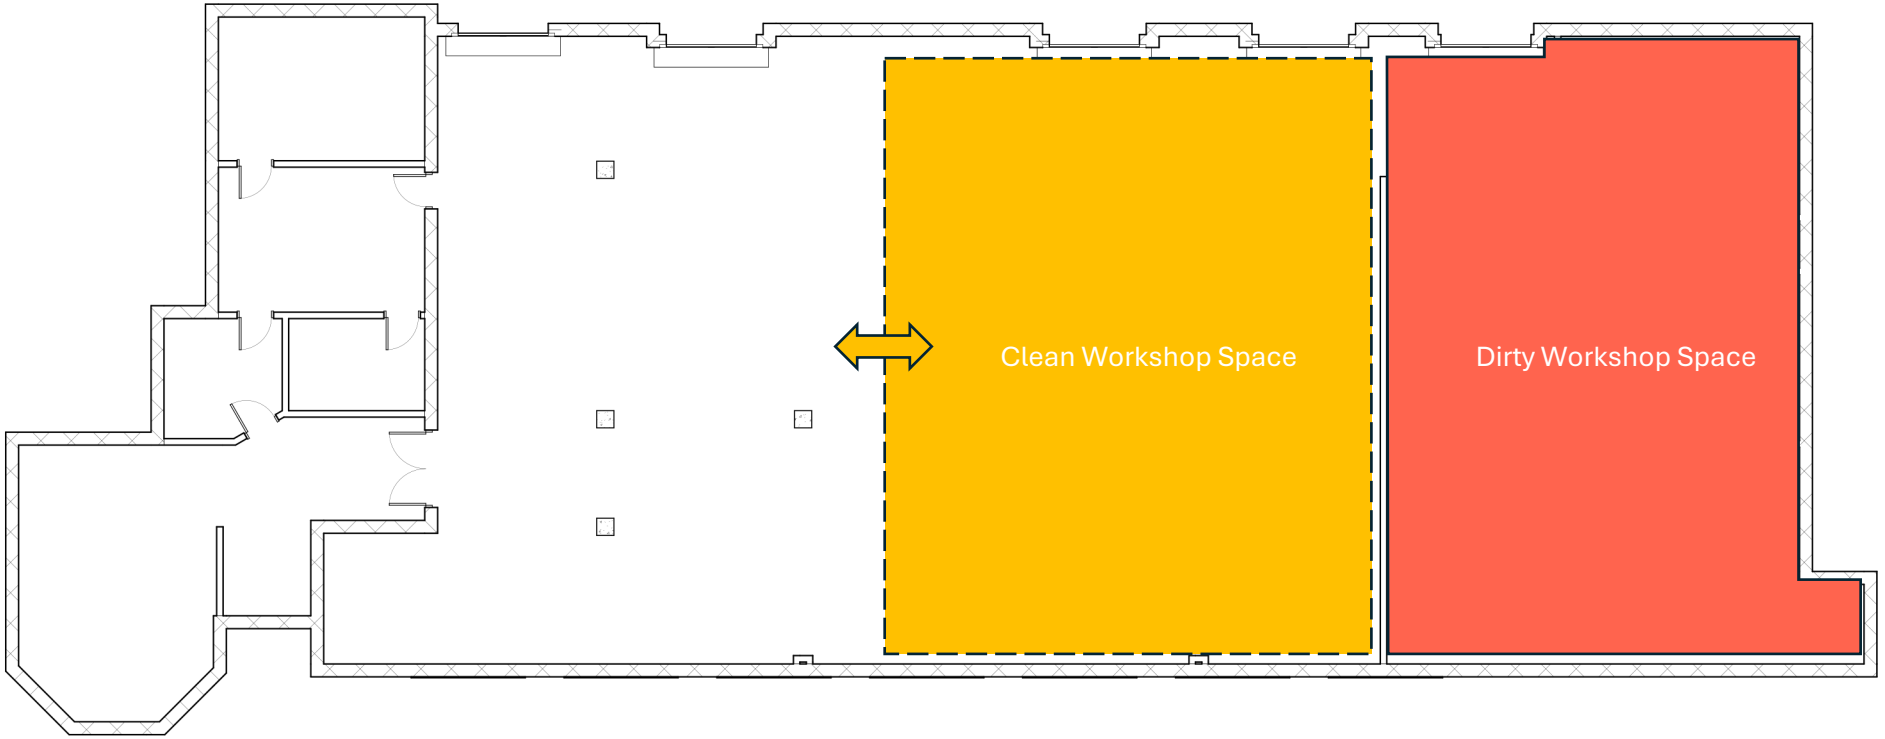

Event: Studio workshops with community participants

Dates: tbc

Max occupant No.: 20-40

Area required:
- Meeting space
- Clean workshop space for model-making (tbc)

Equipment: tables, chairs

Community Studio Furniture Project

Courses:
- BA Product and Industrial Design

Schools: S

Collaborators: tbc

Project Dates: 19-23 March 2027

Use Scenario:

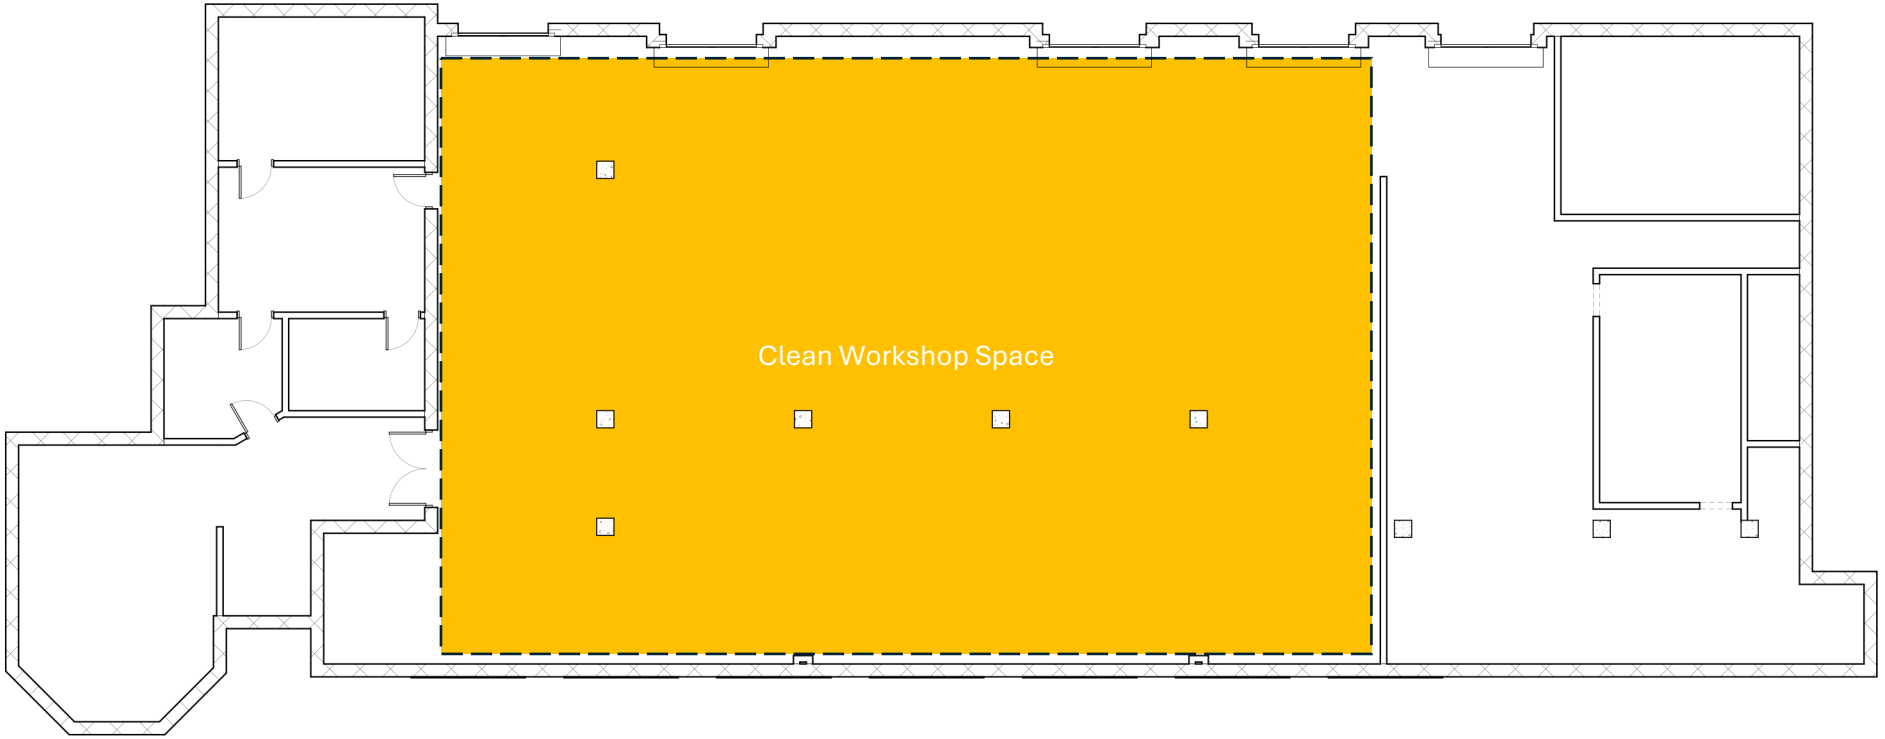

Event: Making furniture for the Community Studio

Dates: 19-23 March 2027

Max occupant No.: 120

Area required:
- 1,200-2,400ft^2 for clean workshop
- Outdoor front yard space for workshop activities

Equipment list:
- Worktables
- Hand tools

Leather Futures

Use Scenario:

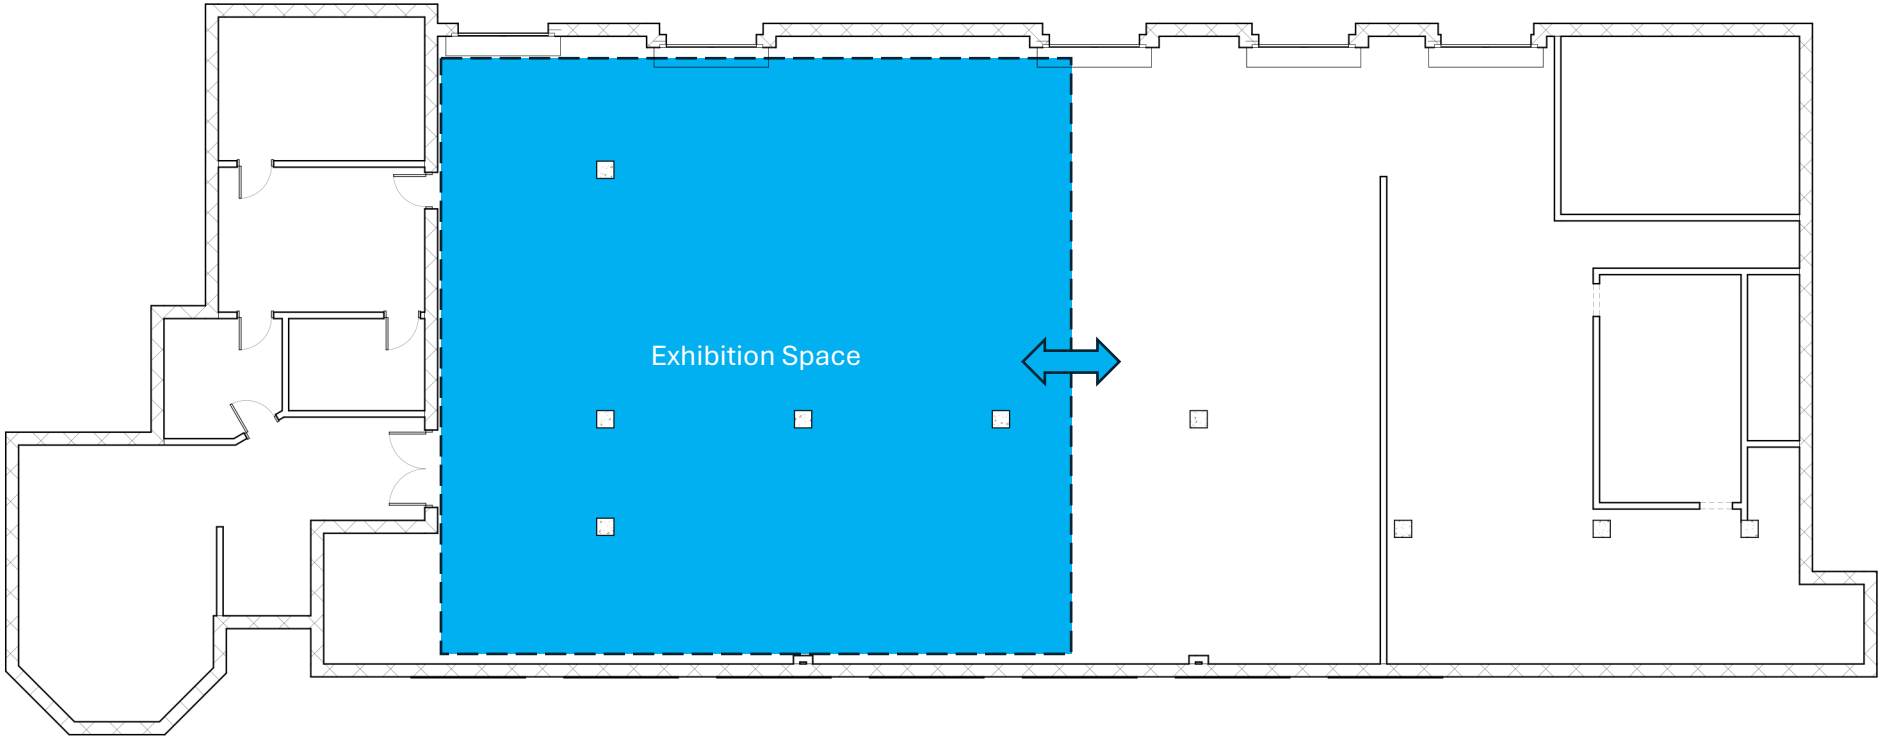

Event: Leather Futures Workshops

Dates: 1-week in March/April 2027

Max occupant No.: 125-150 (tbc)

Area required:
- 1,200-2,400ft^2 for clean workshop
- Outdoor front yard space for workshop activities

Equipment:
- Worktables
- Hand tools
- Leather materials
- Water

Drawn Together Exhibition

KTC Organisation: Creative Health Camden

Collaborators: tbc

Project Period: January 2028

Use Scenario:

Event: Drawn Together Exhibition

Date: 15/1/28 – 30/1/28

Max occupant No.: tbc

Area required: exhibition space (area tbc)

Equipment: tbc
